

When considering suppliers to provide me with two way radios to efficiently and effectively communicate in our busy restaurant environment, I chose the Team at Paradym Tech. Juris and his team not only provided the best value, they also helped me choose the right equipment. I was looking for radios with a dedicated channel free from interference, a light weight radio that was easy to wear and clear crisp sound. Juris recommended the Motorola CLP1013 and I couldn't be happier with his recommendation. We have had tremendous success with these units, the range is fantastic, the battery life lasts an entire day and the radios are light weight, durable and discreet. Using these radios has enabled us to quickly and efficiently communicate amongst our managers, hosts and culinary leaders leading to a better guest experience.

Paradym Tech was prompt and reliable in handling all of our two way radio needs. The radios arrived shortly after ordering, pre-programmed, fully charged and ready to use. Juris was extremely diligent in his after sale follow up to ensure we were happy with the units and they were working as expected. I have had no problems whatsoever with the radios I purchased, but I feel confident that if I ever run into an issue Juris will look after it.

I highly recommend the Paradym Tech for your two -way radio needs.

Thanks Again to Juris and the Paradym team!
