Dear Principal Colleagues,

Our school was looking for an effective way to maintain contact with administration, office support staff, custodians and student supervisors. Instant, easy and clear communication was our desired solution...enabling us to maintain a smooth link between parties...improving our workplace and enhancing our safety plan.

I ended up purchasing Motorola DTR Series radios from Juris Utnans at Paradym Tech and I am extremely happy with the quality of these radios and with the level of service that was provided.

Juris first met with us to demonstrate how well these digital radios will work at our school facility. After stringently testing these radios throughout our entire school property, the decision was easy...we ended up purchasing 10 radios!

Shortly after placing our order, in a few days, Juris returned with our new radios assembled, fully charged and programmed exactly to our specifications. We were given another demonstration on how to use our radios and any questions we had were addressed. After all our questions were answered, Juris also looked after processing our rebate for us.

We've tried other radios before but none that could measure up to the quality of audio and the area of coverage as these radios provide...and... they are "license free"!

I highly recommend that the use of these radios at your school will enhance communications, safety and security. I also highly recommend the services provided by Juris and the team at Paradym Tech.

Sincerely,

Paul McAlpine

Principal
